The Honorable Emmett Sullivan
United States District Judge
United States District Court for the District of Columbia

Washington, DC 20001

NANCY MAYER WHITTINGTON, CLERK
U.S. DISTRICT COURT

My name is David Allen Anderson and I was the final prosecution witness in Senator Ted Stevens trial. I am writing this letter to you to clarify my testimony during the trial. I testified to the fact that there was never immunity for me or my family and friends. That is simply not true.

I want to be sure that I am being extremely upfront because I do realize the seriousness of this situation I am going to communicate to you. I am not a lawyer and have not been represented by a lawyer through this whole ordeal which began in very early September 2006. As I testified in court I am simply a welder.

The final comments during my testimony focused on an Affidavit that was signed in March 2008. I understood that if I testified that this was not an accurate document we would all be able to continue with life and we even covered it during the closed door sessions I had with the prosecution. Before I took the witness stand that day I had the understanding that the agreement would be honored or I would never have testified, I would have pleaded the fifth. The prosecution has NEVER denied that they had agreed that they would leave my family and friends alone free of prosecution through the Department of Justice and Treasury Departments investigations. They (Special Agent Chad Joy and Eric Gonzales) have never denied that they looked into my eyes and shook my hand agreeing to leave these people out of any and all investigations in exchange for my cooperation and testimony.

Your Honor, as I testified that day I believed in my heart that there was an understanding with the Government. I would also like to convey some other concerns I have had about the Trial.

On 10-02-2008 Document Number 126-3 for Case 1:08-cr-00231-EGS was introduced to you without my knowledge and Paragraph 16 is not true and is completely false. The Department of Justice introduced this exhibit with full knowledge that it was not true.

1. The prosecution had me study my Grand Jury testimony for several months and all the way up to the week of my testimony. Since the beginning of September 2006 I had cooperated with the Department of Justice. They came to my home and I immediately cooperated with them and have always continued to do so. They have since then been grooming me for this trial. They have helped me with refreshing my memory by showing me the 360° pictures and the satellite imaging. They showed me the whole job and we have gone over that.
2. There was an Affidavit that I wrote in March 2008 that laid out the agreement that I had with the Department of Justice. I said that the word IMMUNITY was not mentioned during our discussions while under oath but I said that under distress. The agreement was that if I cooperated my entire family would be safe from the investigation(s) of the Department of Justice and also The Treasury Department as agreed at the picnic table at the cabin. The Department of Justice has never ever denied that they shook my hand on this agreement but instructed me on how to sugar coat it and get it swept under the rug during the trial as they have told the court just the opposite.
3. The Department of Justice provided me with the timeline for the Ted Stevens job. It had been six years or so and I could not remember the actual dates of the events when I couldn't come up with a timeline on my own they found ways to create the timeline by reminding me of dates and events that occurred. I was also showed invoices that I had signed to help me recall the timeline and my activities.
4. While I studied the documents behind closed doors in the Federal Building they even provided me with sticky tabs that I could mark the pages with so that if the memories were fuzzy I could read and reread these documents until I recalled them correctly. They set folders out on the desk and slid them away from me telling me that I was not to read them. They left them in the room and closed the door. Of course I read it all. I even called a friend and read the grand jury testimony to them all while in the Federal Building.
5. There was a contract to have me murdered issued by Bill and Mark Allen. The government has given both of them immunity for crimes they have committed and they refuse to honor their agreement with me. I am scared for my life because of that, but now that I have written this letter to you I am certain I will never receive protection for me and my loved ones. They have left me hanging out there.

6. I testified at the Grand Jury that I had been in Oregon while VECO billed my time elsewhere. Of course it was never my job to figure out where my paycheck would come from. I was told by the Department of Justice they did not have to provide the defense with my testimony from the Grand Jury until 24 hours before I took the stand. The prosecution had always known where I spent my time and how.
7. Without the preparation from the prosecution and the reminders from them about my activities and the agreement I had with them about my family and myself I would not have given the same testimony. Without a shadow of a doubt I believe this trial would have gone much differently.
8. They also allowed Bill Allen, in another corruption case, to assert that I had blackmailed him without correcting the record. That was a completely false accusation and he is their witness who lies and the prosecution would not correct it even after numerous complaints.

In closing, Your Honor I would like to thank you for taking the time to read my letter and consider my concerns.

I am available if you have questions I can be contacted at

Sincerely,

A handwritten signature in black ink, appearing to read "David Allen Anderson", with a long, sweeping underline that extends to the right.
